SW M5542 Angle Sander

3" (Ø76mm) - 18.000 1/min (0,45HP)

swepro SW M5542 - This compact and handy angle grinder works with very little vibration despite its maximum speed of 18000 rpm and is therefore suitable for many different grinding and polishing jobs. The power can be continuously adjusted by a speed regulator. The unit has a 360-degree rotatable exhaust air duct and a safety switch that protects against accidental switch-on. Grease can be applied to the gearbox via the grease nipple on the angle head of the sander. The sanding disc has a holder for Roloc sandpaper.
