

SW IWSS28 Impulse tool straight-type

Shut-Off (14 to 28Nm) 6.800 1/min - 1/4"
BSPT

swepro SW IWSS28 - The robust impulse tool straight type with a torque range of 14 to 28 Nm is ideally suited for precise screw connections with high repetition accuracy in industrial assembly. The high speed of operation and the quality of the fittings increase productivity in all areas. The non-slip behavior of the tool as well as the low noise and vibration levels reduce health risks for the user to a minimum. The low weight, the isolated handle and the very good balance of the tool allow fatigue-free working, even in confined areas. The shut-off function automatically switches off the screwdriver as soon as the pre-set torque is reached.
